

**Partner Philipa Remington Selected *D Magazine*  
'Best Women Lawyers' in Dallas**

Dallas - Stinnett Thiebaud & Remington is proud to announce that Philipa Remington has been voted a 2010 D Magazine Best Women Lawyers in Dallas by her peers. With nearly 30 years of experience as defense counsel in the health care industry, she has extensive experience in pharmaceutical and medical product litigation. More than 1,000 Texas doctors have enlisted her assistance. Ms. Remington has significant experience in the defense of birth injury, pediatric and pediatric neurosurgery cases, and she has been recognized by her peers as a *Thomson Reuters* Texas Super Lawyer.

"That Philipa's peers selected her for this honor is no surprise," says Stan Thiebaud, firm managing partner. "Philipa is recognized by lawyers across the nation for her excellence in medical device and drug litigation. No doubt, she deserves recognition as one of Dallas' Best Women Lawyers."

To compile the list, D Magazine sought recommendations from other attorneys based on their personal experience with the lawyer they were nominating. Attorneys were only allowed to cast votes for attorneys in their practice area. Finally, each voter could nominate only one attorney from within their own firm and two outside their firm.

*[Stinnett Thiebaud & Remington](http://www.strlaw.net), a health law, business and litigation firm, enjoys regional and national recognition for high quality, strategic legal services on behalf of the spectrum of health care, including for profit and not for profit hospital systems, surgery centers, large physician groups, practice management companies and individual health care professionals.
